

## Type T MOORING BUOY

Type T mooring buoy is traditional harbor mooring buoy for different tonnage ships to be moored. At the mooring position, it is feasible to do loading, unloading and maintenance service. Rokem is capable of designing and manufacturing other mooring buoys to meet customers' requirements.

### Buoy type and specifications

\* Tractive force here means after the diameter of recommended chain wears 15%, the testing load of relevant grade 2 studlink chain.

Type	MB2.6-T	MB3.6-T
Float dia.	2.6 m	3.6 m
Height of float	2.0 m	2.54 m
Mooring shackle dia.	110 mm	140 mm
Recommend chain dia.	81 mm	100 mm
Tractive force *	178 t	263 t
Recommend sinker	6~10 t	8~20 t
